

Connect to the Ultimate Mobility Engineering Resource – SAE Digital Information Solutions

SAE Digital Library: Enterprise Solutions

SAE offers *Enterprise-Wide Solutions* through our Digital Library, a vast repository of authoritative technical content that includes SAE Standards and Technical Papers. It provides thousands of ways to power new product development, reduce costs, facilitate project planning, and support compliance of globalization programs.

With the SAE Digital Library, you choose only the components you need:

- SAE Ground Vehicle Standards (J-Reports)--over 2,300 Documents
- SAE Aerospace Materials Specifications (AMS)--over 3,100 Documents
- SAE Aerospace Standards (AS)--over 4,700 Documents
- SAE Technical Papers since 1998--more than 28,000 in all!
- Use the included SAE Global Mobility Database (GMD) to access summaries of more than 168,800 documents—technical papers, standards, regulations, journals, reports, etc.—from SAE and other sources in countries such as Canada, France, Germany, Great Britain, Italy, Japan, Korea, and Switzerland

Regardless of configuration, the SAE Digital Library includes:

- Hosted document storage and management
- Advanced, flexible, and intuitive search software
- Comprehensive bibliographic database with abstracts
- 24/7 access to full-text documents
- SAE technical support and quality assurance

Business Advantage:

- Enables your team to deliver quality products on tight deadlines to assure you remain competitive and compliant
- Provides your engineers 24/7 access to the leading-edge technology information they need to quickly implement designs prescribed by advanced planning R&D, or regulations
- Supplies critical information to your entire team to increase productivity and decrease rework
- Decreases cost of maintaining a dedicated information system and increases your ROI
- Decreases administrative tasks for researchers which increases their “research time” and productivity

Minimum System Requirements:

- Internet Connection
- Windows 98, NT, XP, Vista
- Internet Explorer V 6.0 or higher, Netscape V 7.2 or higher
- Adobe Acrobat Reader 5 or higher
