

## Aviation Marketplace

### Buy Aviation Parts and Services

ILS can help you locate aviation parts, equipment and services from a wide range of sources, including manufacturers, distributors, aftermarket companies, and service and repair companies. We bring buyers and sellers together instantly. You'll know immediately the companies that have the parts you need, their location, the quantity of parts in inventory and their condition – new, used, or overhauled.

Designed specifically for the MRO Industry!

## Product Information

### [Aviation Aftermarket Analyzer](#)

See the supply and demand for the most sought after parts in the aviation industry.

### [ILS Quick Catalogue](#)

Now your customers and prospects can search your inventory, make selections, and submit requests for quotes – all from your company web site. [Click here to see demo!](#)

### [Service/Supplier Directory](#)

Buyers easily locate suppliers by company name or by the products or services they offer.

### [Auction](#)

Buyers can search for bargains, and sellers can increase their return for excess inventory.

### [ILS e-Valuator](#)

Using in-depth supply and demand statistics and, in some cases, pricing, ILS can help you assess the value of any parts listing or inventory you wish.

### [Stolen Parts](#)

As a service to the industry, ILS maintains a database that lists aircraft parts and equipment reported by law enforcement agencies as stolen.

### [Banner Advertising](#)

Reach thousands of active buyers with banner ads on ILSmart.com. Bring more prospects directly to your web site.

### [Message Broadcast](#)

Reach the entire ILS community with your message. Request emergency support or highlight special items for sale.

### [U.S. Government Information](#)

ILS provides U.S. Government information to help you find alternate parts and suppliers, view dimensional data, and discover new markets for parts.

### [CAGE Code](#)

Identify companies by their CAGE Codes. Research National Stock Numbers and procurement histories for specific items.

### [Mil-Specs](#)

Your technical solution for obtaining industry, government, military, U.S., international, and national standards, specifications, and publications.

### [U.S. Government Supplier Option](#)

ILS provides services to enable suppliers to reach the U.S. Government marketplace while helping government buyers find the items they need.

### [Classified](#)

Buy and sell online using text and pictures. Combines classified advertising with the speed of the Internet.

### [Overhaul/Service Capability Database](#)

Enter a part number, and you'll have immediate access to FAA approved companies to repair or overhaul your item.

### [Web Design and Hosting](#)

ILS offers effective, affordable web design and hosting services. Trust your site to the experts.

### [E-Procurement Services](#)

Negotiate price, place orders, generate POs, and issue invoices using our secure platform for on-line buying and selling

### [Parts Database](#)

Suppliers list over 5 billion parts for easy access by buyers.

### [Wireless Message Broadcast Alerts](#)

You can be notified instantly via your pager or cell phone whenever there's a new MB in the category you select.
