SAE INTERNATIONAL®

AUTOMATED & CONNECTED VEHICLES INFORMATION PRODUCTS

Get unlimited access to a growing body of authoritative research.

The all-new **Automated & Connected Vehicles Information Products**, accessible on the SAE MOBILUS® technical resource platform, are an integral cornerstone of any organization's suite of mobility information products.

This technical resource collection, developed with intensive feedback from industry professionals, covers global research, developments, and applications in automated and connected vehicle technologies and provides access to technical papers, books, journal articles, and standards that will help drive expertise and innovation in this rapidly-growing field.

The SAE Cybersecurity Information Products are a great complement to the Automated & Connected Vehicles collection and delivers a selection of resources including technical papers, books, journal articles, and standards.

CONNECT WITH SAE SALES

For additional information, please contact the SAE Sales Team at **customersales@sae.org** or **+1.888.875.3976** (U.S. and Canada) or **+1.724.772.4086** (Outside the U.S.)

Drive Expertise

Subscribing to the Automated & Connected Vehicles Collection grants access to content in critical areas of research:

- Automated Driving Systems
- Sensors
- Testing and Simulation
- Telecommunications
- Driver Assistance Systems
- Wireless Communication Systems
- Vehicle-to-Vehicle and Vehicle-to-Everything Communications
- Collision Warning and Avoidance Systems
- Active Safety Systems
- Electronic Controls
- Intelligent Transportation Systems

Recognized Authority

For more than 100 years, SAE INTERNATIONAL has been the authoritative resource for mobility engineering. Through professional learning, publications, and technical resources, SAE supports advancements in the ground vehicle and aerospace industries and academic institutions.

Growing Body of Knowledge

With more than 700 technical publications and growing, this collection provides robust content coverage to help engineers keep pace with the rapidly evolving automated and connected vehicles space.

SAE MOBILUS®

The SAE MOBILUS technical resource platform provides state-of-the-art standards, technical papers, and more. With more than 226,000 resources and growing, plus a customizable dashboard, dynamic redlining, and in-platform annotation, SAE MOBILUS puts a world of engineering knowledge at your fingertips.
