ASTM COMPASS®

Your Portal for Standards,
Testing, Learning & More

www.astm.org/compass

ASTM Compass® provides your entire organization 24/7 access to all the ASTM content you need plus robust workflow tools that help you find and use standards more effectively than ever.

From one convenient platform, you'll access your organization's tailored content which can include: any or all of ASTM's 12,500+ standards, the ASTM Digital Library containing 1,500+ books and more than 47,000+ papers, chapters and articles, as well as online training courses and videos.

Complimenting this content, you'll have powerful tools to help you work smarter. These include: adding notes and images to standards, viewing standards that show changes via color-coded highlighting,

sharing functions to pass on knowledge, translated standards, and more.

A robust taxonomy includes more than 4,000 primary categories and 45,400+ keywords. This enables you to perform deeper, faster searches that are narrowly defined and provide relevant and effective results.
