

Now available through SAE Mobilus®

# AEROPAKS: CUSTOMIZABLE STANDARDS SUBSCRIPTIONS

With thousands of standards making today's aircrafts safer, faster, and more efficient than ever before, SAE is the world's largest, most respected aerospace Standards Development Organization.

Rely on the standards in your AeroPaks subscription as you shape the future of flight and help new ideas take off.

Select from:

**14,500+**  
aerospace standards

**17,500+**  
aerospace material specifications

Download and buy only the resources you need from SAE's complete collection of aerospace standards and material specifications accessible on the SAE Mobilus® technical resource platform. With daily updates to the platform, you can be sure you are using the latest standards and specifications.

As an AeroPaks subscriber, you will also have access to 23,000+ historical versions of SAE Aerospace Standards (AS), Aerospace Recommended Practices (ARP), Resource Documents, and Aerospace Materials Specifications (AMS) Standards.

## SAE MOBILUS ACCESS DRIVES EFFICIENCY

Searching for a specific standard? Find it by name in an instant. Looking to solve a problem, but not sure what exact resource you need? Filter the entire collection by topic, committee, date, and more.

**Dynamic Standards Red-lining**  
eliminates manual version comparison

**Customizable Dashboard**  
keeps pertinent materials accessible to users

**Always Up to Date**  
Newest version always available

**Data sets**  
provide standards in workable formats

**Account Information**  
enables informed subscription decisions

Design Your Ideal Subscription | With your choice of up to 10, 20, 35, 50, 75 or 100 downloads a year.
